

Dalkia, 16 MW Hot Water, 2008

Bioenergy Plant

The bioenergy plant at Skinnskatteberg is owned and operated by Dalkia.

The plant supplies hot water to Setra sawmill kilns and provision is made for a flue gas condenser to permit hot water to be directed for district heating in the local town (at a later stage).

Power: Biofuel boiler 16 MW hot water
Oil boiler 12MW hot water

Customer: Dalkia Industry Partner

Location: Skinnskatteberg, Sweden

Business: Sawmill

Year built: 2008
